

18"

NEXON

Used for concert cars

Sub 18" is the perfect choice whenever a powerful high-performance 18" IMPACT "NEXON" woofer with a 4" Voice coil, the sub features a unique termed hybrid horn-loaded configuration and can be tuned to the lowest frequencies in order to improve the system's efficiency and convey a deep, enveloping sound.

Unlike conventional horn loaded systems, WTC181 subs ensure excellent efficiency even at close listening distance, which makes them suited for use even in small venues.

Technical Data

- Speaker Type: Horn-loaded Subwoofer

Acoustical data

- Frequency Response: 35 - 250 Hz
- SPL: 119dB Max 136 dB
- Directivity: omnidirectional
- LF: 18" (460mm) Ferrite magnet
- Voice Coil LF: 4"
- Power: 1200 W
- Peak Power: 2400 W
- Housing: Birch plywood, Black Steel cover
- Handles: 4
- Width: 600 mm
- Height: 750 mm
- Depth: 755 mm
- Weight: 75 kg
